TO HELP
US SAVE
THE LRC!

The TRHA has placed a deposit with VIA Rail Canada to purchase one of the last remaining LRC locomotives, number 6917. We have until August to raise the balance of the purchase price. We need your help to complete this purchase and move the LRC to the Toronto Railway Heritage Centre. If we are unable to save this locomotive, it will be scrapped along with all of the other LRCs on VIA property.
